The CPA Model: Earnings Based on Country

Tiers	CPA
BEST DEAL	\$1000
TOP Tier 1 Countries	\$600
Tier 1 Countries	\$400
Tier 2 Countries	\$200
Tier 3 Countries	\$50

How You Can Earn: CPA Model Explained

Your commissions as an easyMarkets affiliate varies depending on the country of residence of the referred client and is based on two key elements:

The client's deposit

The client's trading activity

To earn CPA (Cost Per Acquisition) commissions, your referred clients need to meet certain criteria.

First, they must deposit a minimum of **\$100** into their trading account.

Then, to qualify for commission, they need to generate a specific gross spread through their trading activity. This varies depending on the market they're trading in.

For example, let's say you refer clients based in **Serbia**. In this case, they need to generate a gross spread of **\$120** to qualify you for CPA payment. This translates to around **3 lots of Gold** or roughly **7 lots of EUR/USD**. The better your clients trade, the higher your earnings will be!
